I have been a vegan for a few years now, and I managed to learn how to cook. Everything I have made from the book has been awesome! I just started a Vegan diet in order to improve my health however, I had no idea where to begin in regards to recipes and comprehension. This recipe book has a bit of everything in it. From breakfast to dinner to desserts, smoothies and beverages. There's something for every mood or moment. I also like how it tells you how long the prep time is, the total time, and how many servings it makes. Its always helpful to know how many servings you will be making with a recipe. The only negative is that there is no pictures. I would have really liked to see some tasty looking pictures for me to compare my dishes to and see how they should come out! But overall, most of the recipes in this book are healthy and all are vegan! This book is reasonably priced and I definitely recommend that you check it out. Some of the recipes sound so mouthwatering delicious!!
