I work in a company where I'm forced to be a leader, but I don't want to, but no one else can do it, so they expect me to lead. Having not had any prior experience as leader and having difficult co-workers who constantly disrespect me, I had no choice but to take action, and so I purchased this book, and what an excellent little nugget of information this book is. This book provides strategies that I am now implementing in dealing with the team I have to manage. Oh, how I dread managing a team.
