Customer Reviews

I love the Antique Trader books! I use them all the time, I love flipping through the pages and reading about all the lovely vintage and antique items. This book took forever to receive from the seller on . As soon as it arrived I started looking through it. Beautiful pictures. The items listed in this book are RARE...Things that I probably will never see at an auction or estate sale!!!!!!! The 2016

edition is the smallest of all the books, fewer pages, a lot less items. Each section is smaller and the items shown are the top of the top in price and value. In the past the other editions showed items of all price ranges, not just the high end in each category. I am not normally disappointed in a book purchase. But this is the first!

Very disappointed in this book. It seems to be more about collectibles (such as glass) and not on what I would call real antiques.. Almost nothing on French and Asian items. This book is a waste of my money. I said before I would not buy Kovels again but now I will even though it is hard to find items - at least they have information if you spend the time to look.

Great for anybody that is interested in antiques. Has pretty decent information on popular items but not all. Would be better if it included a marking guide with it. Would recommend.

Very interesting book. My husband enjoyed all the antiques. And how to price them.

Good..it was a gift.

Great book

Good resource. Thanks.
