& App Development

## Customer Reviews

I am starting a html programming course and I wanted to have some idea of what is it and how it works so I decided to buy and entirely this book, which actually resulted being really useful! While i read it a learn a lot of new stuff i did not learn before, it is well written with some really nice explanations which make it easier to comprehend. If you are going to start to programm stuff, you should try this book because it will give you the big step into knowledge about python. It deserves my five stars!
