Customer Reviews

I use such books as my relaxation tool as I try to relax after a busy day or week, The jokes are logical and mid twisting as I enjoy the creativity of the author to come up with such. Some of the jokes are good to the kids and I some times share it with them.

There's a great variety of jokes in this book, meaning it can be great for young kids but can also be used by parents and still be entertaining. It's a short book but considering the amount of jokes in it I guess it is quite good value for money. The longer jokes and riddles are entertaining and I can see why it would be funny for kids to read. I would recommend this as it is so versatile and can be used by people of all ages. I think adults are also going to like this book too, and especially kids are going to enjoy and love this book. Liked it so much.

I enjoyed reading this book until the very last page. This was actually really funny! Most joke books I have come across are very similar and are more aimed at kids. Definitely recommended. If you want to be happy and laugh all night, and if you want to crack a joke around your friends and be a star, then I recommend you read this Best Jokes 2016!

I enjoyed this book of jokes it made me laugh and I would recommend this book to anyone wanting to have a laugh, so go and read this book. This is one of the funniest joke books I have ever read.

This book cheered me right up and I've been using the jokes ever since. I don't think it matters what age you are, it caters for all. Great book and I'll be using these jokes in the future.
