It is highly illustrated, well written and easy to understand. There is no risk. If you are not 100% satisfied, you can return it for a full refund within the first seven days. This only takes a single click on âœManage My Kindle.âœ

•What Reviewers Are Saying About This Book...âœ Everything she advises is so true! We Americans have way too much mediocre stuff. So much better to buy less stuff, but buy better. Great style advice as well as "living with less" advice. Really enjoyed this book.âœ

• Nancy Comptonâœ Delightful read over coffee. Definitely makes me wonder about my walk in closet and abundant collection of "everything". Great tips and great read. Nice to leave a reader discussing the thought provoking material long after finishing the book.âœ

• Jamie Boydâœ I really enjoyed this book. Born and raised in France, but now living in the US, it's fun to read such a great overview. Demystifies the french mystique so any woman can project a strong sense of her own style. No silliness in this book...just style principles that will carry you anywhere.âœ

Customer Reviews

I love the french women and their fashion style,always looking classy. With this book on Lady's guide to french style,i've got easy tips on how to improve my appearance and to know just the right dress to wear for any occassion.I would love all the ladies out there to get this book because it will make your inner sophistication and stylishness stand out by dressing better.HIGHLY RECOMMENDED.

I really enjoyed this book. It was laid out by topic and easy to follow. Good information for anyone who wants to become more of their own style. Book lists ideas that can work for anyone who wants to feel better about themselves in their own skin. Suggestions are easy to follow and how to use what you have to work for you. This book doesn't send you to the mall to spend \$\$\$\$ on clothes from high end magazines. Down to earth on simplicity of self improvement.

Got to say, not much information that you probably didn't already know. The author makes the point

several times that French women like red lips and beach hair. Okay, but then the book is only .99 so can you really complain about the context?

I love the fact that this writer encourages us women not to be afraid to create our own style. She also tells me that I can be appropriately dressed for any occasion without going broke and that I can indeed be stylish without too much makeup or hair styling products. I didn't know that I could use the clothes I buy to work to my advantage. I hope a sequel of this book comes out soon...

I really enjoyed this book. I was half-expecting to hear some expensive and unattainable advice but instead I found some great practical tips on how to create a stylish look. It's so easy to be lured in by fashion magazines and store ads and to want the latest style, but all this does is force you to spend lots of money on too many okay quality clothes. This book tells you how to compose a timeless wardrobe and which styles suit your shape. It also offers lots of simple beauty tips. I really love the focus on simplicity and saving money which is the opposite of the advice in most fashion magazines these days.
