Customer Reviews

Very informative, I would have never figured out most of the things that are in this game if it were not for this guide. I understand it quite well and it has helped me out so much. The game is much more simple for me now. I am not very good at most games, mostly because I have not ever been able to figure them out on my own. I am happy I found his guide, it helps so much.

This "book" is absolute garbage. There are only 13 pages in the book with words. The information on those pages is all information that one can glean from playing the game for 5 min. DO NOT PURCHASE. I am sending this joke back. BUYER BEWARE!

I rather enjoyed this particular guide book. It helped me understand what the point of leveling up in

Pokémon Go was and how to best gain XP. I loved how easy it was to understand and the cool tips such as how to start the game off with pikachu. This book was awesome, however, I can't give it 5 stars due to a formatting error that made the charts difficult to view on android.

This was a quick read, but full of lots of useful information. Within the first few pages it even tells you how to catch a secret Pikachu! I was a field tester during the beta of Pokémon Go and still learned lots from this book. A lot of the technical aspects of Pokémon Go aren't explained in game, but this book lays them out in an easily understandable way. I highly recommend it!

This was a good starter guide for PoGo, as the game doesn't do a whole lot of explaining for you. It's definitely great for trainers who are just starting out or more experienced trainers who might have missed some details of the game. Definitely recommend.
