## Customer Reviews

I have used both the earlier edition and this one in my classes for several years and students really like the book. The text covers a lot of ground and excels at presenting sophisticated ideas in a way that my students can understand them. It also incorporates topics of interest to a wide variety of students and speaks to a range of topics and are that appeal to my diverse student body. Margaret Power, Illinois Institute of Technology

Pretty good comprehensive book of modern Latin America but I didn't very much care for the organization of the book or the index. I felt like the organization made sense but that the content placement wasn't always relevant or helpful.
