Mechanics Of Materials (10th Edition)

Synopsis

For undergraduate Mechanics of Materials courses in Mechanical, Civil, and Aerospace Engineering departments. • Thorough coverage, a highly visual presentation, and increased problem solving from an author you trust. Mechanics of Materials clearly and thoroughly presents the theory and supports the application of essential mechanics of materials principles. Professor Hibbeler's concise writing style, countless examples, and stunning four-color photorealistic art program • all shaped by the comments and suggestions of hundreds of reviewers • help readers visualize and master difficult concepts. The Tenth Edition retains the hallmark features synonymous with the Hibbeler franchise, but has been enhanced with the most current information, a fresh new layout, added problem solving, and increased flexibility in the way topics are covered. • Also available with MasteringEngineering®, a. This title is also available with MasteringEngineering, an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Interactive, self-paced tutorials provide individualized coaching to help students stay on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts. The text and MasteringEngineering work together to guide students through engineering concepts with a multi-step approach to problems. • Note: You are purchasing a standalone product; MyLab®, & Mastering®, does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. • If you would like to purchase both the physical text and MyLab & Mastering, search for: • 0134518128 / 9780134518121 • • • Mechanics of Materials Plus MasteringEngineering with Pearson eText -- Access Card Package, 10/e • Package consists of: 0134319656 / 9780134319650 • • • • • Mechanics of Materials, 10/e 0134321286 / 9780134321288 • • • • • MasteringEngineering with Pearson eText--Standalone Access Card--for Mechanics of Materials •

Book Information

Hardcover: 896 pages

Publisher: Pearson; 10 edition (January 15, 2016)

Language: English

ISBN-10: 0134319656

ISBN-13: 978-0134319650

Product Dimensions: 8.1 x 1.3 x 9.1 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)

Average Customer Review: 4.8 out of 5 stars Â Â See all reviews Â (4 customer reviews)

Best Sellers Rank: #21,410 in Books (See Top 100 in Books) #2 in Â Books > Engineering & Transportation > Engineering > Civil & Environmental > Structural #2 in Â Books > Engineering & Transportation > Engineering > Materials & Material Science > Strength of Materials #3 in Â Books > Science & Math > Physics > Nanostructures

Customer Reviews

The book was new and in good condition. Most universities recommend Hibbeler for mechanics.

Great service from rental. The text is very straight forward. Great learning tool.

Great examples!! Conceptual problems really help you understand the material.

No tenÃ- a el platico de un libro nuevo.
