If you are looking for the best book on the market to help with the VAAVOOM, this is the only book you need to read! It has been my savior. My boom went out the door after having my hysterectomy. It's now been knocking on my door and swinging it right off the hinges!

I purchased this book for suggestions with Young Living Essential Oils for the bedroom. OMG!! I purchased a few of the oils suggested.....eh hem....they work! This book opens new doors for uses of the oils and benefits they provide for a happy, healthy marriage! No shame in my game!!

Book is amazing, it is not a book on how to techniques, but which oils you can use in the bedroom, what each oil does, and ways to apply, I like that it has a section to write your own notes after each oil. There are testimonies and recipes in the back. Loads of useful information, it's mostly written in innuendo so it's a pretty funny read. I read it in one morning and have gone back to it daily while

deciding which oils I would like to purchase, and how I want to use them. I don't want to ever loan out my copy and be without it, but I've highly recommended it to all my oily friends.

Lucy is amazing. Lots of good info for young and old alike. I loved her group and have learned a lot from her - and this book is amazing. Highly suggest it to all who need a little spark in their relationship !

This book was entertaining and easy to read. While I enjoy witty banter and off color humour, I couldn't help but notice it was written in a style geared towards a certain demographic (could be target marketing?). The give away was the gratuitous specific brand name dropping throughout the entire book (definitely a marketing scheme). Long story short (including this slim book's content), less than half of the book has essential oil information and even less of that is the actual recipes and instructions. The filler was mostly self empowerment and comedic timing. With all of the positive reviews and ratings, guess I got my hopes up for something more educating or helpful than Google.

This was so well written, and clever. An informative story telling as if you were just across from her listening to what she had to say. I read it in one sitting..and then started a YL oils shopping list. Job well done

I read this book in about 30 mins. I could NOT put it down. What an amazing and easy read. Even tried out some of the Oily ideas and they weren't lying. I will happily be telling everyone about this book. I am an oil freak but had no idea oils can turn you into a freak also. This book will change your life in an amazing way ;)

Well, well, well. If you were looking for natural solutions for . . . well, you know . . . that stuff, look no further. Lucy is your gal. Kinda like your BFF only it's a book so you don't have to actually talk to anyone else. This book is tastefully done with all the lowdown on exactly what you need to know about every issue where you might have questions (no anatomy pictures, so don't expect that). It's just a darn helpful book. Enough said.
