Today only, get this awesome book on Crockpot Recipes for just \$2.99. Regularly priced at \$9.99. Read on your PC, Mac, smart phone, tablet or Kindle device. Our modern lifestyle forced us to a point where we're very dependent on takeaways, fast foods or microwave meals. Although these do a good job in filling your tummy, they also bring with them many health issues – preservatives, artificial flavorings and other synthetic stuff which doesn't bode well for your health if consumed regularly. Crockpots prove to be one of the best solutions to this issue. It's relatively inexpensive, easy to operate and virtually maintenance-free other than the routine cleaning. In most cases as stated in this book on crockpot recipes, all you need to do is to shop in your local supermarket for the ingredients, do some simple food preparation, put everything into the crockpot and leave the rest to the crockpot. In the next 8 hours or so, the crockpot does its magic and cooks the food to perfection while locking in all the flavors and nutrition. This frees up time for you to do other things (yes – even while you sleep!). Crockpots really make things easy! But it's not be possible without a book on crockpot recipes! This book on crockpot recipes contains detailed step-by-step crockpot recipes on the best way to prepare delicious, tantalizing and healthy meals using the crockpot. The crockpot recipes in the book will open your eyes to the fact that other than being able to tenderize tough meat, a crockpot can also be used to prepare a wide variety of sumptuous meals you never thought possible. Everything starts with this cookbook on crockpot recipes. The key concepts here are 'healthy' and 'minimal effort'. The simplicity of the crockpot's concept of 'prepare & forget' are clearly evident in the crockpot recipes where food preparation work is kept at the minimal while the crockpot does the rest of the work. I had no idea that it could be so easy to use my crock pot. For most of us, it just sits there are on the shelf after having used it once or twice. The meat is mushy and the food is bland. What I didn't understand was that the reason it tasted bad wasn't because of the crock pot but because the terrible recipes I had been using. That is where this book hits the spot! It is packed with some of the most delicious recipes I have ever tasted!

Perfect book for my mom's birthday dinner! I have been looking for crockpot recipes for my mom's

birthday dinner. My mom loves to eat crockpot dishes that is why I purchased this book. I will be preparing the beef lasagna, ravioli casserole, sour creamed pot rolls, and stuff peppers. I got all the dishes from this recipe book. It would be awesome if the author included pictures of the dishes, but overall, I love this book.

The beef recipe is one of my favorite choice in this book. The herbed roast beef is one of my favorite to do meal for dinner. It only have 6 ingredients and it only gives you less than 30 minutes preparation and set for 6-8 hours and you can have a really delicious dinner. Actually I already tried 5 of the recipes in this book and my husband love to go home early for dinner. What I am thankful for from this book. After setting the whole preparation and cooking procedures, I left the crockpot on and do the things I love to do and I can read all the books I love to do which what I am doing since got this book. This make my life easier, eating delicious meal while reading books almost whole day...

A great recipe book. The book has different kind of recipes, Beef Recipes, Vegetarian recipes, Dessert Recipes and some Soup Recipes. So I would say this book is all in one. The author gave all instructions clearly and it's easy to understand. I have found here almost hundred recipes. I made few of them already and it was very tasty. Only one thing is missing in this book. There is no pictures of those recipes. I hope the author will care about it. Although I gave this book 5 stars because i really loved this book. Strongly recommended to all.

My son decided he is adult enough to rent his own à œapartmentâ •. In fact, this is small room, even without good stove. So we bought him a new crock pot. Now my son has this book that is a beautiful complement to those great device! With it he even doesnâ ™t have to have any skills in foods preparing. He is grateful for our two gifts, and says that those several recipes he had prepared already are delicious! I only think this is wrong when food recipes donâ ™t have any pictures. Nevertheless, Iâ ™m going to find previous two books of 99+1 series.

I am not really a lover regarding crockpot preparing due to the fact My spouse and i loathe hanging around and quite a few quality recipes consider 5-10 time to end. My spouse and i don't have the actual persistence although I really do prepare food crockpot foods now and then. I am preserving that cookbook because doing so possesses established it is value. I've tried out 1 menu and yes it sampled technique much better when compared to a menu My spouse and i stick to. While My spouse and i desire there have been pictures of each and every plate, it is just a good grab. Initial

effect usually persists therefore I am wanting the same end result while using the additional quality recipes.

Crockpot Recipes that you will enjoy just like me. Here are some of the recipes that I like to prepare at home. My favorite are the beef recipes: 1. Picadillo Appetizer Dip Beef 2. Thai Beef BBQ Beef Ribs wok 3. Crockpot Veggie Beef Soup 4. Crockpot Collard Greens 5. Split Pea Soup Then chicken recipes 1. Chicken Breast with Pepper & Garlic 2. Sesame Chicken 3. Water Buffalo Chicken

Awesome! This was a surprising book in terms of everything it contained in terms of crockpot recipes and so forth. This is a one stop for all your crockpot needs. The book takes you from the science of slow cooking with a crockpot which was unexpected but a pleasant surprise, to all types of recipes. I would never knew you could cook so many different things in a crockpot. And most importantly easily, with some recipes not having many ingredients at all. Its almost no excuse not to eat healthier now. Really worth recommending!
