# Survey Of Operating Systems, 5e

## Synopsis

McGraw-Hill Education is proud to introduce the fifth edition of Jane and Charles Holcombe's Survey of Operating Systems. This title provides an introduction to the most widely used desktop operating systems (including Windows, Apple OS X, and Linux) using numerous illustrations and hands-on activities to build a foundation for success in the IT field empowering students to adapt to different job situations and troubleshoot problems. The new edition features information on mobile operating systems, as well as chapters on subjects peripheral to operating systems, such as computer security, desktop virtualization, and connecting computers and mobile devices to networks.
