I recently my copies of "The 'Who Is Johnny Dollar?' Matter" by John C Abbott and published by Bear Manor Media arrived. The books can only be described as stunning. There is no other word for them. I'm not aware of a more exhaustive work done for one program. Very often, publishers and authors work within a budget for time and money, putting a limit on the amount of information that will end up in book form. It's hard to imagine that anyone could have anything left to write about this series after this. I am a fan of the Bob Bailey run. I don't have much interest in the shows prior to his

taking the role. Only by listening to the shows did I get an appreciation for Bob Readick and especially Mandel Kramer's portrayals. (How many of us really listen to all the shows that we have in our radio show collections? Abbott did for this series-- and every plotline down to the details of the expense account items and their amounts is here). There are three volumes1: The Russell, O'Brien, and Lund years2: The Bailey years3: Readick & Kramer yearsThe number of shows each actor played the role is the reason why each volume has such a different cost, \$26.95, \$32.95, and \$19.95, respectively. Don't cheap out and get only the one with the actors you prefer. Volume 1 has some delightful sections about the series, including Dollar's biography (assembled from tidbits from show dialogue), his personal life, various hazards that he has encountered (he's been shot 13 times, and Abbott quips about the superstitious among us not to worry about it being 13 because there are still missing programs that would adjust the number), and how to estimate Johnny's income.
